Miscellaneous Messages

- 1. Camera club auction of scanner: This is a preview of what we will auction. The proceeds will go toward our new digital projector.** It is a 1999 Polaroid Sprints can 4000, the first consumer slide scanner that went over 2500 ppi. It scans at 4000 ppi and gives a 55 megabyte file in 24 bit RGB for a scanned 35 mm slide or negative. It originally sold for around \$1500! Works with either MAC or PC and requires a SCSI card. I believe it is in good working order.
- 2. Upcoming field trips:** June 25th 26th Palo Alto Concours d'Elegance Hillsborough
June Sunday 26th San Francisco Pride Parade
- 3. Pictorial Prints will be submitted when Dick returns from his latest trip.**
- 4. Travel and Journalism slides still have not been submitted.**
- 5. There was no digital competition, just discussion this month.**
