For Sale

Logan Matt Cutter with bevel cutting blade. Originally \$140.00 for both. Brand new condition and some blades are included. Will cut beveled edges. \$70.00 for both. Contact Pat Prettie at 254-0176 or prettyphotos@comcast.net or see me at the meeting. First offer takes.

Miscellaneous Messages

1. Field Trips There are many ideas for local trips which include doing some sunsets at Altamont Pass of the power lines and windmills. Another idea is to do a nature day at the Sacramento Wild Life Sanctuary of migrating birds, a 3rd idea is to go to the Conservatory in SF, if they will allow us to bring tripods; and a 4th idea is to go to the Aquarium in Monterey.

2. Urgent Messages Slide chairs are getting blue cards improperly filled out. This causes stress for the chairs and delays in the judging, and as you know we don't have a lot of time at the meetings. Please double check that the cards are correct.

3. Winning N4C Slides and Prints Bring all your winning slides and prints to the first meeting in December. They are needed to enter into the annual N4C competition. The lists have been given to everyone of the slides and prints that are eligible. If anyone needs to know what they are, contact Baha Fahmy, Jim Morrow, Natalie Barton, or me, Pat Prettie. Baha is in charge of the travel slides, Natalie is in charge of the prints, Jim Morrow should have the journalism and pictorial slides, and I have the list of creative slides that are eligible. These lists were passed out at the camera club meeting, but if for some reason you did not get your list, contact the above persons. The N4C Annual Luncheon is Sunday, January 11 at 11:30 or thereabouts at the Emeryville Holiday Inn.

4. ASILOMAR sign up is coming. It will be a wonderful weekend with great presenters, food and lodging for two days in the conference center in Pacific Grove. All this for \$200 which is a good deal even without the presenters!

For Sale

Polaroid Film Scanner/4000ppi: Original price was \$950.00. I will let it go for \$500. It's in perfect condition with a dynamic range of 3.7. (That's very good, and means it will scan shadow areas well) It is relatively simple to use and will take up to four slides or @ 6 negatives at a time, compared to the Nikon Scanner, which will take only one slide. Also, you don't have to close the window to work on a picture in Photoshop. You can scan and work in PS at the same time. (Unlike the Nikon Scanner) Can be set for underexposed slides, is autofocus and either auto or manual exposure. It has slide and negative film carriers and will scan both. SUCH A DEAL! Contact me at 254-0176 or prettyphotos@comcast.net or see me at the meeting.
